

Google Gemini Demonstration

Overview

The Google Gemini Demonstration is a presales engagement designed to showcase the capabilities of the Google Gemini solution.

During this interactive Google Gemini solution demonstration, SHI's presales engineer will showcase key capabilities of the Google Gemini solution. In addition, SHI's presales engineer will walk through customer-specific use-cases to ensure the vendor solution will meet the customer's specific requirements.

Audience

- CIO/CTO
- Director of IT
- IT Operations Managers

Areas of Discussion

- A Brief Overview
- Gemini App
- Help me Write, Create, Design
- Side Panel
- Google Vids
- Bonus Material

Deliverables

- Customer-facing demo (typically virtual)

Solution Benefits

- Understanding of key solution capabilities
- Real-life view of end-user interface
- Exposure to administrator interface
- Mapping of product capabilities to customer-specific requirements

Why SHI

SHI takes a vendor agnostic approach when it comes to selecting a solution for our customers. As your trusted advisor, SHI will ensure we have a proper understanding of your business objectives, budget, existing environment and overall strategy before recommending the best possible solution for your unique situation.
